

Corporate Social Responsibility Strategy Support

Status: Volunteer Position (unpaid)

Reports to: Executive Director based in Portland, OR.

Commitment: 8 weeks initially, with possibility to extend

A volunteer position at Health In Harmony is an opportunity to gain hands-on experience working with an international nonprofit. Because we are a small staff team, you can expect to play an integral role in our work. Corporate Social Responsibility (CSR) is something that companies and corporations do to improve their local and global communities. This position supports Health In Harmony in the development of their CSR outreach strategies. We are looking to secure corporate partnerships in various cities throughout the US. As a volunteer, you will assist the Executive Director to: explore strategies used by nonprofits to promote CSR to corporations; research on outreach strategy to existing HIH partners; and map out corporations that could be considered for CSR engagement. In addition, you will work with the HIH marketing team to help and tailor a powerful engagement plan for each corporation.

Responsibilities

- Market research on corporations to approach for CSR
- Research on and share CSR best practices with HIH team
- Research on and share CSR outreach strategies for nonprofits
- Development of CSR outreach plan
- Support marketing team around CSR outreach and communications

Qualifications

- Experience or interest in Corporate Social Responsibility
- You believe in - and are passionate about - our mission
- Strong writing and strategic skills and ability to translate CSR to Health In Harmony and broader public in an understandable way
- Open-minded and willing to take on a variety of different projects
- Familiarity with global health, environmental science, or planetary health a plus
- You are working toward - or recently completed - a Bachelor's degree in a Business related field
